

12 Who Care
COMMUNITY SERVICE AWARDS

September 30, 2004

Ritz Theatre and LaVilla Museum

Celebrating our Seventeenth Anniversary

Thank you for sharing this very special evening with us as First Coast News celebrates the spirit of volunteerism at its very best.

The stories of the twelve special people who we honor here tonight truly demonstrate that one person can make a difference. They serve, they educate, they heal, and they give hope. Our entire community is indebted to those being recognized tonight, who give unselfishly to build a better community for us all.

The 12 Who Care Community Service Awards were created to support and encourage volunteer efforts. By sharing the stories of these individuals' commitment and dedication to volunteer service, we hope to inspire others to follow their lead.

We are proud to present these awards as part of a broader program of community service. We dedicate much of our time each year to many community projects, such as our 12 Kids Who Care program, Operation Stuff the Bus, our annual school supply drive, our First Coast News Phone Bank, and our very successful Operation Backpack drive for area kids in crisis. We are also able to obtain grants for non-profit organizations through our Gannett Foundation.

Thanks again for being here tonight and helping us honor our special guests.

Ken Tanning
President and General Manager

Charles and Nancy Jantz

Fundraisers-extraordinaire, Charles and Nancy Jantz co-founded RITA (Research Is The Answer)—an organization dedicated to raising money for breast cancer research. As of nomination time, they were responsible for raising more than \$646,000 for local breast cancer research through a variety of events. 100% of the monies raised are donated to local healthcare organizations for breast cancer research and patient-related programs.
